Cigna True Choice Medicare (PPO)

2022 Drug List (Formulary)

H7849 – 801_Ver A6

Enhanced Drug List

Please read: This document contains information about the drugs we cover in this plan.

This drug list was updated September 2021. For more recent information or other questions, please contact Cigna Customer Service, at 1-888-281-7867 or, for TTY users, 711, 8 a.m. – 8 p.m., local time, 7 days a week. Our automated phone system may answer your call during weekends, holidays and after hours from April 1 – Sept 30, or visit CignaMedicare.com/group/MAResources. The drug list, pharmacy network, and/or provider network may change at any time. You will receive notice when necessary. Cigna is contracted with Medicare for PDP plans, HMO and PPO plans in select states, and with select State Medicaid programs.

Note to existing customers: This drug list has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us” or “our,” it means Cigna. When it refers to “plan” or “our plan,” it means Cigna True Choice Medicare (PPO).

This document includes a list of the drugs for our plans, which is current as of September 2021. If you have any questions, please contact us. Our contact information, along with the date we last updated the drug list, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, drug list, pharmacy network, and/or copayments/coinsurance may change on January 1, 2023, and from time to time during the year.

What is the Cigna True Choice Medicare (PPO) Comprehensive Drug List?

A drug list is a list of covered drugs selected by Cigna True Choice Medicare (PPO) in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Cigna True Choice Medicare (PPO) will generally cover the drugs listed in our drug list as long as the drug is medically necessary, the prescription is filled at a Cigna True Choice Medicare (PPO) network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

Can the Drug List (drug list) change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs in the drug list during the year, move them to different cost-sharing tiers, or add new restrictions.

Changes that can affect you this year. In the below cases, you will be affected by the coverage changes during the year:

- **New Generic Drugs.** We may immediately remove a brand name drug in our drug list if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug in our drug list, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on the steps you may take to request an exception, and you can also find information in the following section entitled “How do I request an exception to the Cigna True Choice Medicare (PPO) Drug list?”
- **Drugs removed from the market.** If the Food and Drug Administration (FDA) deems a drug in our drug list to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our drug list and provide notice to customers who take the drug.
- **Other changes.** We may make other changes that affect customers currently taking a drug. For instance, we may add a generic drug that is not new to the market to replace a brand name drug currently in the drug list or add new restrictions to the brand name drug or move it to a different cost-sharing tier. We may also make changes based on new clinical guidelines and/or studies. If we remove drugs from our drug list, add prior authorization, quantity limits, and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected customers of the change at least 30 days before the change becomes effective, or at the time the customer requests a refill of the drug, at which time the customer will receive a 30-day supply of the drug.
 - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Cigna True Choice Medicare (PPO) Drug List?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2022 drug list that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2022 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those customers taking them for the remainder of the coverage year.

The enclosed drug list is current as of September 2021. To get updated information about the drugs covered by Cigna True Choice Medicare (PPO), please contact us. Our contact information appears on the front and back cover pages. If there are significant changes made to the printed drug list within the covered year, you may be notified by mail identifying the changes.

How do I use the Drug List?

There are two ways to find your drug within the drug list:

Medical Condition

The drug list begins on page 1. The drugs in this drug list are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "CARDIOVASCULAR, HYPERTENSION / LIPIDS". If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 156. The Index provides a list of the drugs included in this document. Both brand name drugs and generic drugs are in the drug list. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the drug name column of the list.

What are generic drugs?

Cigna True Choice Medicare (PPO) covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** The plan requires you or your doctor to get prior authorization for some drugs. This means that you will need to get approval from the plan before you fill these prescriptions. If you do not get approval, Cigna True Choice Medicare (PPO) may not cover the drug.
- **Quantity Limits:** For certain drugs, the plan limits the amount of the drug that Cigna True Choice Medicare (PPO) will cover. For example, the plan allows for 1 tablet per day for BYSTOLIC 10MG. This applies to a standard one-month supply (for total quantity of 30 per 30 days) or three-month supply (for total quantity of 90 per 90 days).
- **Step Therapy:** In some cases, the plan requires you must first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Cigna True Choice Medicare (PPO) may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the plan will then cover Drug B.
- **Non-Extended Days Supply:** For certain drugs, Cigna True Choice Medicare (PPO) limits the amount of the drug that we will cover to only a 30-day supply or less, at one time. For example, customers who have not had any recent fill of opioid pain medications within the past 108 days (referred to as "opioid naïve") are limited to a maximum of 7 days' supply of opioid pain medication. Customers who have received a recent fill of an opioid pain medication (not opioid naïve) are limited to up to a month's supply of that medication at one time. Other high cost drugs may be subject to a non-extended day supply restriction, as well.

You can find out if your drug has any additional requirements or limits by looking in the drug list that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the drug list, appears on the front and back cover pages.

You can ask Cigna True Choice Medicare (PPO) to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the plan drug list?" on the next page for information about how to request an exception.

Options for Maintenance Medications

Taking the medications prescribed by your doctor is important to your health.

We are committed to helping you achieve control of chronic conditions by making it easy for you to receive your maintenance medications. There are several ways we can work together to accomplish this goal:

- Talk with your doctor about whether a 90-day supply of your ongoing, stable medications may be appropriate. [Taking these medications every day as prescribed is important for your overall health, and getting 90-day prescriptions of these medications can ensure that you don't miss a dose.]
- You can receive a 90-day supply at most retail pharmacies or through one of our mail-order pharmacies.
- Talk to your pharmacist if you are experiencing any new challenges with your maintenance medications.

How can I use my prescription drug coverage to save money on my medications?

There may be opportunities for you to save money on your medications using your plan coverage.

- Ask your doctor (or other prescriber) if there are any lower-cost generic alternatives available for any of your current medications.
- Check the Drug Tier and Cost-Share Tables to see if your plan offers copay savings with mail order.
- Explore whether the 'CMS Extra Help' program may offer additional financial support for your medications.
- If your medication is not covered on the plan drug list, talk with your doctor about alternative medications which are covered in the drug list.

What if my drug is not in the Drug List?

If your drug is not included in this drug list, you should first contact Customer Service to ask if your drug is covered. If you learn that the plan does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by the plan. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by the plan.
- You can ask the plan to make an exception to cover your drug. See below for information about how to request an exception.

How do I request an exception to the plan Drug List?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not in our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions or limits on your drug. For example, there are certain drugs that the plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to provide a tiering exception for a drug to be covered at a lower cost-sharing tier under the following circumstances:
 - If the drug you're taking is a brand name drug you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains brand name alternatives for treating your condition.
 - If the drug you're taking is a generic drug you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains either brand or generic alternatives for treating your condition.

- If the drug you're taking is a biological product you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains biological product alternatives for treating your condition.

These exceptions would lower the amount you must pay for your drug.

Please note, if we grant your request to cover a drug that is not in our drug list, you may not ask us to provide a higher level of coverage of the drug. Also, you may not ask us to provide a higher level of coverage for drugs that are in the Specialty tier.

Generally, we will only approve your request for an exception if the alternative drug is included on the plan's drug list, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a drug list, tiering or utilization restriction exception. **When you request a drug list, tiering or utilization restriction exception, you should submit a statement from your prescriber or doctor supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing customer in our plan, you may either be taking drugs that are not in our drug list or taking a drug that is in our drug list but your ability to get it is limited. If this is the case, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide whether you should switch to an alternative drug that we cover or request a drug list exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug up to a 30-day supply, in certain cases during the first 90 days you are a customer of our plan.

For each of your drugs that are not in our drug list or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs without a drug list exception, even if you have been a customer of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not in our drug list or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a drug list exception.

In order to accommodate unexpected transitions of our customers that do not leave time for advanced planning, such as level-of-care changes due to discharge from a hospital to a nursing facility or to a home, we will allow a one-time 31-day supply (unless the prescription is written for fewer days).

Cigna True Choice Medicare (PPO) Drug List

The formulary that begins on page 1 provides coverage information about of the drugs covered by Cigna True Choice Medicare (PPO). If you have trouble finding your drug in the list, turn to the Index that begins on page 156.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., TRELEGY ELLIPTA) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if we have any special requirements for coverage of your drug.

Some plans offer additional prescription drug coverage in the coverage gap. Please refer to your *Evidence of Coverage Snapshot* to see if your plan has this coverage and for more information.

We specify quantity limits on certain drugs which are indicated with a QL in the formulary that begins on page 1, along with the amount dispensed per the days supplied. (For example: *atorvastatin* 40MG QL 30/30; this means the drug *atorvastatin* 40MG is limited to 30 tablets per 30 days. For 90-day supplies, this quantity limit would be expanded to 90 tablets per 90 days).

For more information

For more detailed information about your Cigna True Choice Medicare (PPO) coverage, please review your *Evidence of Coverage* and other plan materials.

If you have questions about Cigna True Choice Medicare (PPO), please contact us. Our contact information, along with the date we last updated the drug list, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE (1-800-633-4227)**, 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

2022 Drug Tier and Cost-Share Table

The following table represents the plan name, the drug tier number as it appears in the drug list, and the cost-share amount for that tier number. You may also refer to Evidence of Coverage for additional details.

Cigna True Choice Medicare (PPO) is not always able to keep all generic medication in the Generic drug tiers. Some generic medications may be in the Preferred Brand (Tier 2), Non-Preferred Generic and Brand (Tier 3), and Specialty Generic and Brand (Tier 4) drug tiers. Keep in mind that the name of the tier is just a description of the majority of the drugs in the tier. It does not mean that there are only generic or only brand drugs in that tier.

Note for customers receiving Extra Help: Your LIS copay level will be based on how the Food and Drug Administration (FDA) classifies certain drugs. Due to this, a generic drug may receive a preferred drug copay, or a preferred brand drug may receive a generic drug copay. Please see your LIS Rider for additional information on these copay levels. Or call Customer Service for further clarification regarding a specific drug.

Shelby County Schools

Cigna True Choice Medicare (PPO)	Retail Cost Share 30 / 60 / 90 Days	Mail Order Cost Share 30 / 60 / 90 Days	Out of Network 30-day supply
Tier 1: Preferred Generic Drugs	\$10 / \$20 / \$20	\$10 / \$20 / \$20	\$10 / \$20 / \$20
Tier 2: Preferred Brand Drugs	\$25 / \$50 / \$50	\$25 / \$50 / \$50	\$25 / \$50 / \$50
Tier 3: Non-Preferred Generic and Brand Drugs	\$50 / \$100 / \$100	\$50 / \$100 / \$100	\$50 / \$100 / \$100
Tier 4: Specialty Generic and Brand Drugs*	\$50 / N/A / N/A	\$50 / N/A / N/A	\$50 / N/A / N/A

*Specialty drugs are limited to a 30-day supply.

Your plan covers additional drugs not normally covered in a Medicare Prescription Drug Plan as indicated in the Formulary Drug List by the + symbol. Please see your 2022 Formulary document for details. The cost share you pay on these drugs do not count toward your annual TrOOP.

The following preventive benefits are covered at a \$0 copay (deductible does not apply):

- Preventive generic and brand name drugs and diabetic drugs and supplies

Your plan includes the following clinical management edits.

- **Prior Authorization** - This drug requires prior authorization
- **Quantity Limits** - This drug has quantity limits.
- **Step Therapy** - This drug has step therapy requirements.
- * **opioid medication** - Opioid medication available as a 7-day supply or less for first time opioid user. For continued use this drug may only be available as a month supply.
- + - This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
- ^ - This prescription drug has an administrative prior authorization requirement that is not waived. This drug may be covered under different benefits depending on circumstances.
- **HRM PA** – This high risk medication requires prior authorization
- **B/D PA:** This prescription drug has a Part B versus D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending on circumstances.
- **LA:** Limited Availability drug. This drug may be available only at certain pharmacies.

List of Abbreviations

***:** Opioid medication available as a 7-day supply or less for first time opioid user. For continued use this drug may only be available as a one month supply.

^: This prescription drug has an administrative prior authorization requirement that is not waived. This drug may be covered under different benefits depending on circumstances.

+: This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not apply to your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.

B/D PA: This prescription drug has a Part B versus D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending on circumstances.

HRM: This high risk medication requires prior authorization

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

PA: This drug requires prior authorization.

QL: This drug has quantity limits.

ST: This drug has step therapy requirements.

2022 Adherence Package

Preventive drugs are used to improve outcomes for high blood pressure, high cholesterol, diabetes, Part D covered diabetic supplies, asthma, osteoporosis, heart attack, stroke and prenatal vitamins. The list below contains the **generic and brand name drugs** sorted by each category. If you have questions about which drugs are right for you, talk to your doctor. **You do not have to pay a copay or coinsurance for the preventive drugs on this list** if filled at a pharmacy in the Cigna network. All quantity limits, prior authorization and step therapy in the full drug list still apply.
